A photograph of a grand, historic library. The room features high, vaulted wooden ceilings with a series of repeating arches that create a strong sense of perspective. The walls are lined with floor-to-ceiling wooden bookshelves, densely packed with books. The lighting is warm and focused, highlighting the architectural details and the vastness of the collection. In the foreground, a dark wooden railing is visible, and a few small figures of people can be seen in the distance, emphasizing the scale of the space.

Disclosures

The TIMI Study Group has received significant research grant support from Accumetrics, Amgen, Athera, AstraZeneca, Beckman Coulter, BG Medicine, Bristol-Myers Squibb, Buhlmann Diagnostics, CV Therapeutics, Daiichi Sankyo Co Ltd, Eli Lilly and Co, GlaxoSmithKline, Integrated Therapeutics, Johnson & Johnson, Merck and Co, Merck-Schering Plow Joint Venture, Nanosphere, Novartis Pharmaceuticals, Nuvelo, Ortho-Clinical Diagnostics, Pfizer, Roche Diagnostics, Sanofi-Aventis, Sanofi-Synthelabo, Schering-Plow, Siemens, and Singulex. Dr Braunwald has received consulting fees from Daiichi Sankyo, Genzyme, Amorcyte, The Medicines Company, MC Communications, Ikaria, CardioRentis, and Sanofi Aventis. Dr Morrow has received consulting fees from Beckman-Coulter, BG Medicine, Critical Diagnostics, Genentech, Gilead, Instrumentation Laboratories, Johnson & Johnson, Merck, Roche Diagnostics, and Servier.

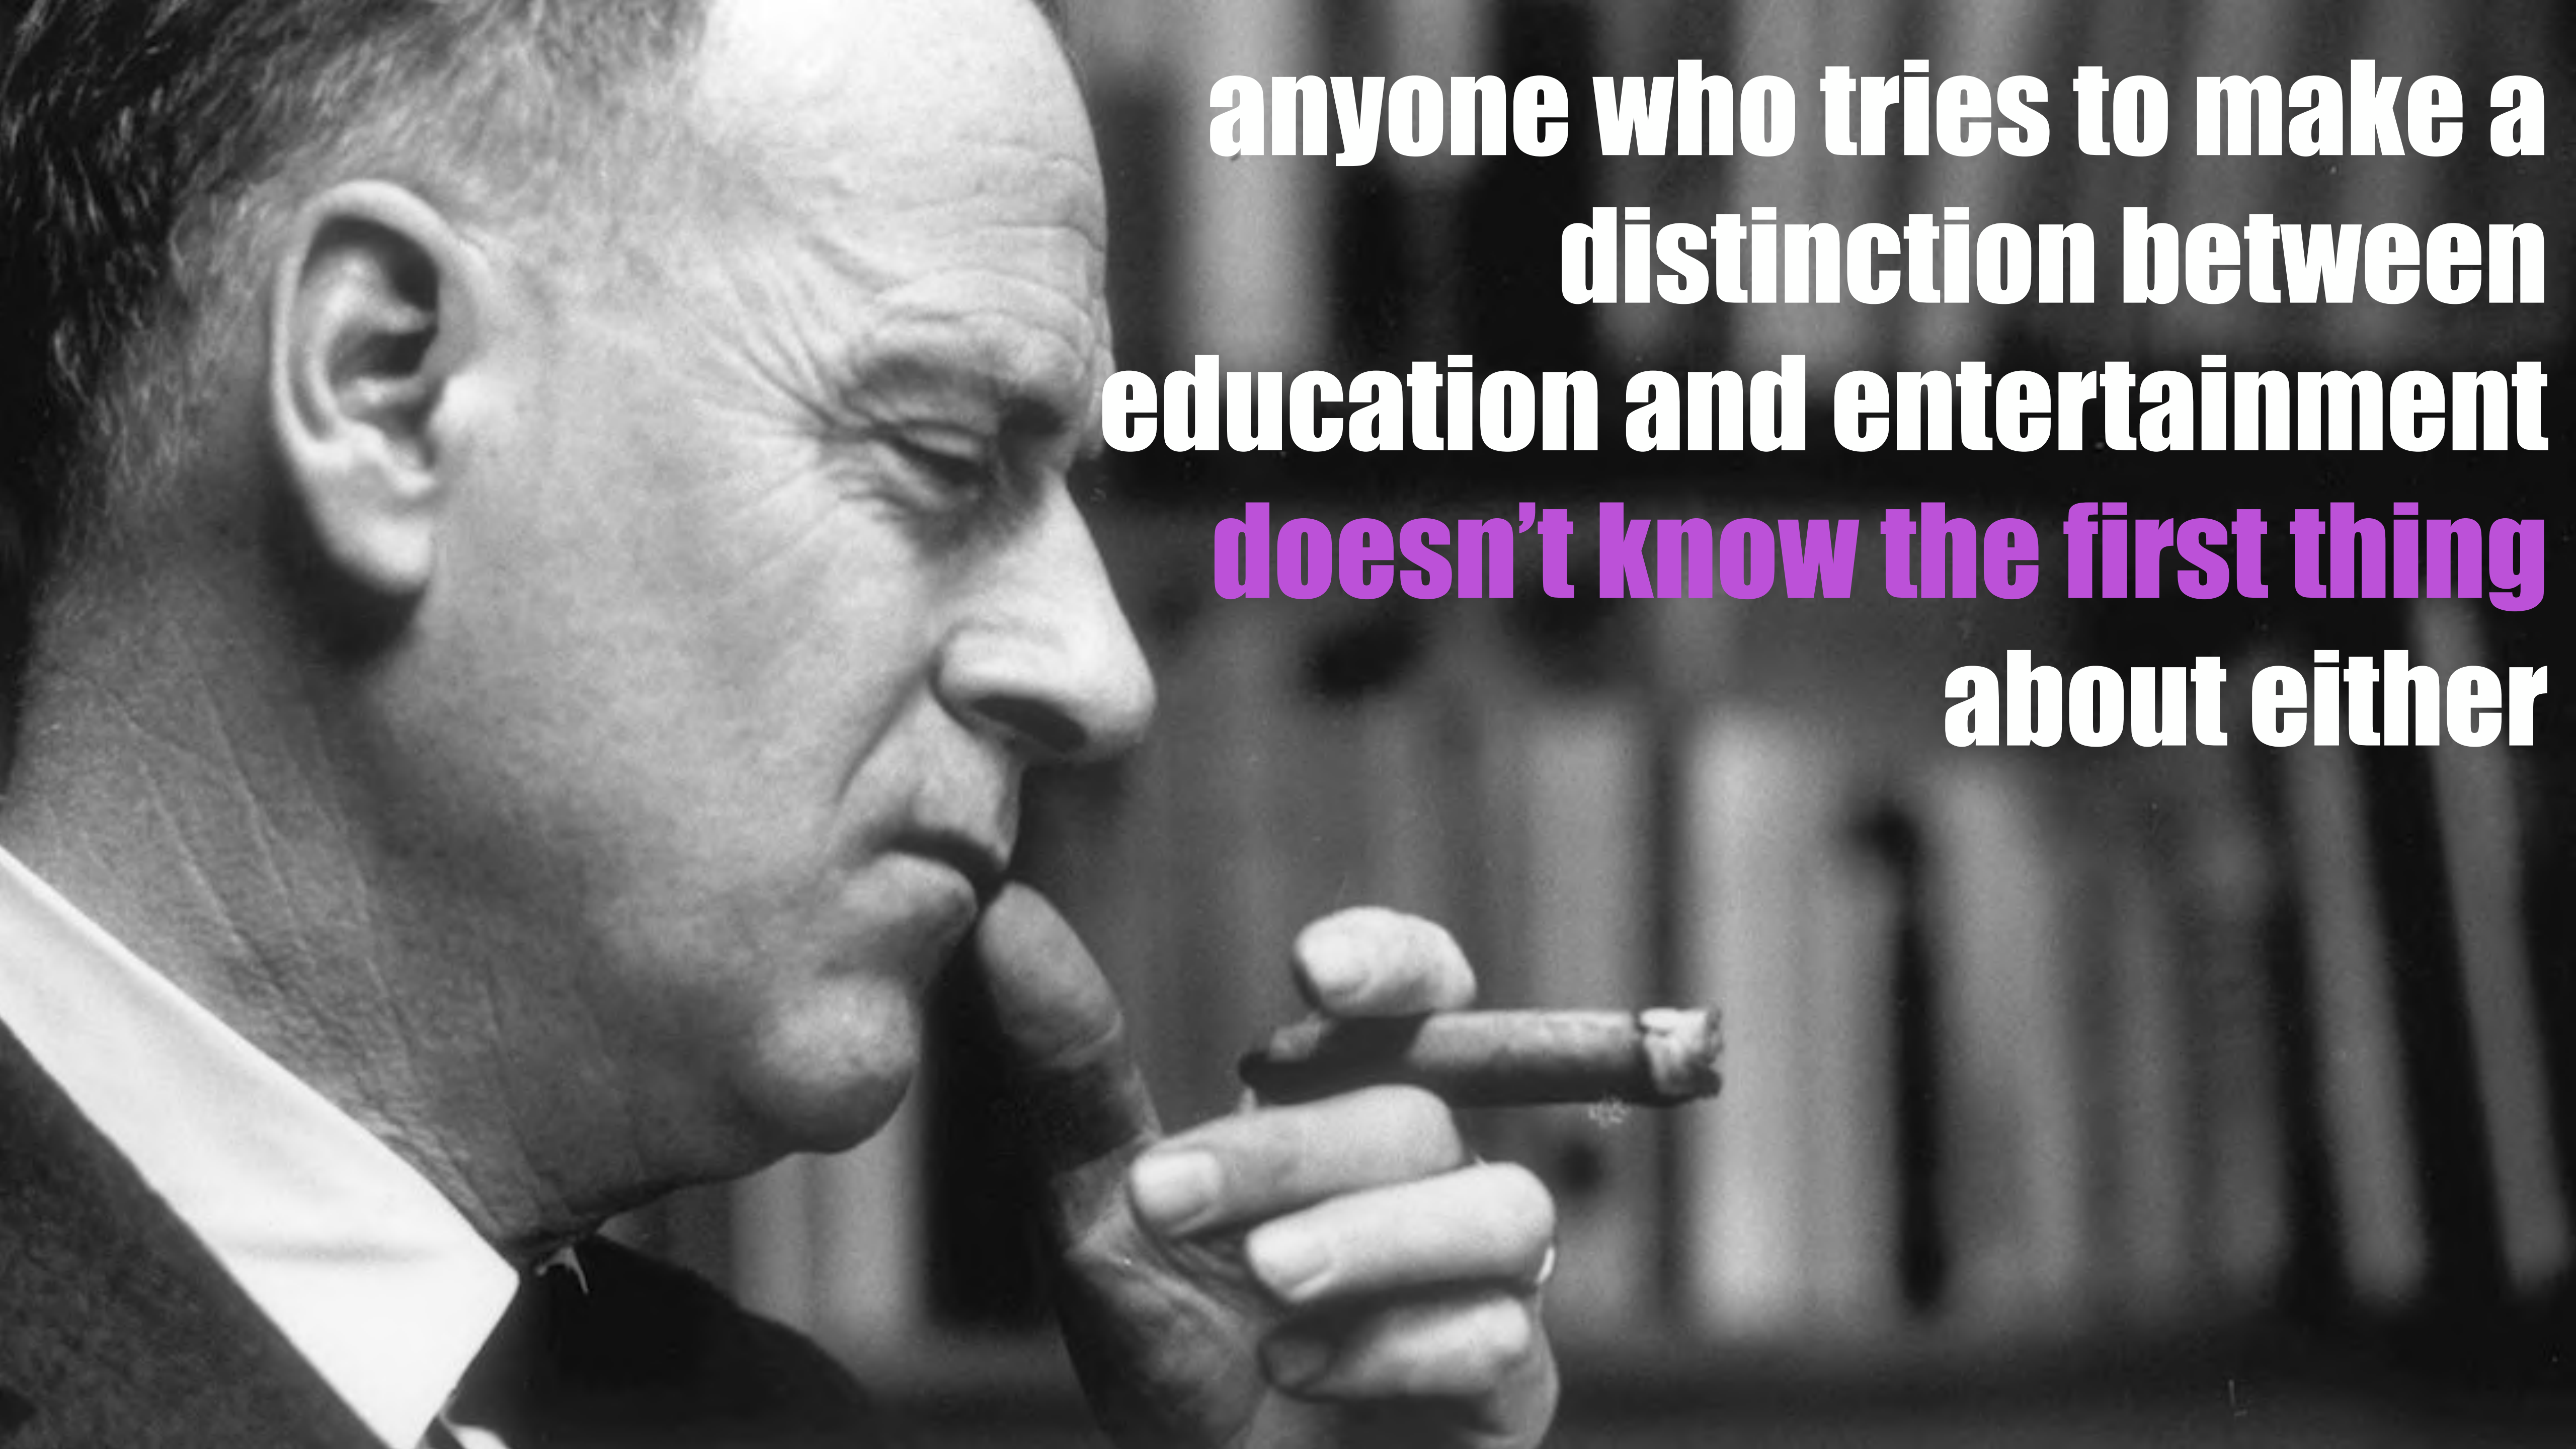

A stylized silhouette of a superhero figure, possibly Superman, is shown from the waist up. The figure has a muscular build, a cape, and is in a heroic pose with one hand on its hip. The background consists of a series of radiating lines in shades of brown and tan, creating a sunburst or starburst effect. The overall style is reminiscent of mid-20th-century comic book art.
